

2 Dead and Score Overcome on City's Hottest July 30

East Side Gasp as Mercury Reaches 100 Mark; No Relief in Sight

Heat Causes Accidents

Hospitals Crowded by Prostrated; Man Goes Insane and Dies in Cell

The hottest July 30 in the history of the local Weather Bureau visited this city yesterday and caused the death of two persons and the prostration of more than a score.

Isidore Goldman, nine years old, of 533 East Eleventh Street, was playing at an East Tenth Street dock when he became dizzy, fell into the water and was swept away by the tide. His body was not recovered.

John Barry, thirty-five years old, of 20 Mulberry Street, died in St. John's Hospital, Yonkers, having been placed in a padded cell after a scuffle with a patrolman during which he broke several fingers.

Thermometer at 100

The temperature at one time reached 100 on the city's thermometers. At 9 o'clock it was 86 and the humidity 59. At 11 o'clock last Friday's record, the season's previous high mark, was equaled when the mercury climbed to 99, while the humidity dropped to 57. The climax of the day's heat wave came at about 3:30, when the 100 mark was reached.

The Weather Bureau announces that no relief is in sight. The East Side was the district that particularly suffered. Thousands of men, women and children sought the parks and literally gasped for breath. The streets were almost deserted about mid-afternoon.

Large crowds were attracted by the mounting of the mercury in giant thermometers that line the city's main thoroughfares. At the Pulitzer Building the mercury was still at 97 at 6 o'clock, and seemed reluctant to recede, in spite of a gentle breeze that had sprung up from the direction of the Hudson River. One at Fifth Avenue and Thirty-third Street actually stood at the 100 mark for nearly an hour.

Heat Causes Accidents

The heat was the direct cause of several accidents. While working on the new elevated structure at Fulton and Washington streets, Jamaica, yesterday afternoon, James A. Hannon, of 295 Seventeenth Avenue, Astoria, became dizzy from the heat and fell from the top of the structure, 100 feet. He was taken to St. Mary's Hospital, suffering from a fractured rib.

Patrolman Bernard J. Malloy, fifty-five years old, attached to the Clinton Street station, was overcome by the heat while on his post, and after being attended at his precinct was sent home. Benjamin Whitney, seventy-eight years old, of 864 First Avenue, Long Island City, was prostrated while on his way to work.

Among the prostrations reported were the following: Charles Hartman, thirty-two years old, taken from his home, 25 South Street, to the hospital; Francis J. Knepper, nineteen years old, of 220 Madison Street, taken from his home to Bellevue Hospital; Mary Gibb, fifty-five, of 161 West 129th Street, taken to Harlem Hospital; Dora Wilson, thirty-five, of 122 West 129th Street, and Peter Johnson, thirty-four, of 307 West Eighty-eighth Street, taken to Knickerbocker Hospital; Joseph Smith, fifty-four, of 440 West Fifty-third Street, and Mary O'Connor, twenty-five, of 27 West Amsterdam Avenue, taken to Polytechnic Hospital.

Others Overcome
Others who were overcome by the heat and received hospital treatment were Marion Sacker, nineteen, thirty-third Street; Joseph E. Young, thirty, of 142 East 123rd Street; Anna Haas, whose address was given as Barnes Avenue, The Bronx; David Kohn, thirty-two, of 433 Wyona Street, Brooklyn; Joseph E. Young, thirty, of 142 East 123rd Street; Nicholas Gorman, sixty-five, of 350 East Ninth Street; Edward Olsen, twenty-two, of 133 Long Island Avenue, The Bronx; Michael Rozzola, of 66 Van Courtlandt Park Avenue; Frank Kelly, of Mount Square Road, Yonkers; Mary Mamantova, of 217 Hester Street; Edna Hansted, of 217 Hester Street; Edna Hansted, of 217 Hester Street; Edna Hansted, of 217 Hester Street.

100,000 Bathers at Coney; Mercury 98 in the Shade
Captain Sackett, of the Coney Island police station, estimated the number of bathers there yesterday at 100,000. It was the biggest week-day crowd Coney has had for years. At 4 o'clock it was 98 degrees in the shade.

Mercury 96 in Albany
Albany, July 30.—Official thermometers in the Federal Building here registered 96 degrees at noon, for the hottest day of the summer and the hottest July day since 1913.

98 Degrees in Chicago
Chicago, July 30.—Chicago suffered in the hottest weather of the year to-day, the thermometer reading a maximum of 98 degrees. Relief is promised for to-morrow.

Boston Hottest in Five Years
Boston, July 30.—The hottest weather in five years was recorded officially here to-day, with a thermometer reading of 98 degrees. A breeze which set in about 2 p. m. checked a further rise.

One Dead in Philadelphia
Philadelphia, July 30.—With a maximum of 97 degrees, all heat records for the last two years were broken here to-day. One death and numerous prostrations due to the heat were reported.

Actors Offer to Help American Red Cross

Mary Anderson May Appear With Them at Huntington, September 1

Leading foreign and American actors have offered their services for the two benefit performances which the American Red Cross will stage at the Rose-Land Hotel at Huntington, Long Island, on September 1. The theatre, which will be opened formally on this occasion, is situated on the estate of Rolland E. Conklin and will hold several thousand persons.

Definite announcement of the nature of the entertainment will be made later. It is hoped that all the Allied nations will be represented. Mrs. Whitelaw Reid is endeavoring to induce Mary Anderson to return to this country and appear. Mrs. Navarro, as she is now, recently made her reappearance on the London stage in a part, in which she represented America.

Whitman to Urge Drastic Food Bill Upon Legislature

Measure Approved by Hoover Gives Absolute Control to Board of 3

[From a Staff Correspondent of the Tribune] Albany, July 30.—A drastic food measure, which will vest almost absolute control in the hands of a small commission, with a view to bringing food prices nearer to the purse of the poorer citizen, is the plan of Governor Whitman, and will be outlined in his message to the Legislature to-morrow night at the opening of the special session.

The Governor completed his proposed food bill to-night. There was every indication that it would meet with obstacles in the Legislature and that the Governor would have a stiff fight on his hands to carry his plan through. Members of the joint Legislative "War Committee" were in conference here to-night, and there was considerable talk of formulating a bill of their own, which would tone down the drastic proposals of the Governor. It is understood that every detail in the Whitman proposals has been carefully approved by Herbert C. Hoover, National Food Administrator, at Washington. For this reason it is expected that some of the legislators, who declare that they will oppose the Governor's measure, will go slow, as most of them want it to appear that they are willing to follow the recommendations of the Federal authorities in the food crisis as far as possible.

Control Vested in Board of Three
The proposed bill calls for a commission of three unpaid members, who will have complete charge of the food products of the state, with power to seize food in cold storage, appraise it and sell it directly to the consumer at what they consider a fair price. It gives the Governor absolute control, with the further power of going into private "bins" and seizing foodstuffs wherever they can show that the individual owner is holding more in reserve than he needs. The Governor will be empowered to give the commission authority to build terminal warehouses and markets for the storage and disposal of the food "bush."

The chief opposition to the Whitman programme is expected to come from the commission merchants, particularly in New York and other large cities of the state, whom the proposed legislation would practically eliminate. The bill is expected to be passed by a large majority of whom are said to be kindly disposed toward the commission merchant or middleman.

Some of the leaders in the Senate are already preparing a supplementary bill, which would give the Governor the power of holding up any state food legislation until Congress has disposed of the Federal food bill. It is likely that the Governor's bill will be referred to committee at the opening session to-morrow night, and adjournment taken for hearings on it before the joint legislative committee. A less drastic measure may be presented by members of the committee, which will serve the purpose of marking time. The suggestion was made to-day that any action on food legislation should be postponed until a uniform plan could be worked out by the various states. It was proposed to invite the Governors of the various states to appear before the legislative committee and discuss uniform laws on food control.

Say Whitman Will Win
The Governor declared that he did not propose to have food legislation passed by the Legislature until a reasonable time. He said he had little concern as to what other states might do. It is the consensus of opinion here to-night that the Governor will win the fight.

It is understood that the Governor will confine himself exclusively to food legislation in his first message to the special session. Other less important matters will probably be taken up in later messages, such as the correction of the defects in the recent reapportionment of the Aldermanic districts in New York City and an appropriation for the maintenance of the port quarantine station in New York, which the Federal government failed to take over July 1, as expected.

Liberal Form Urges State Food Control
At the suggestion of George W. Perkins, the Liberal Forum, meeting in Labor Temple, Second Avenue and Fourteenth Street, adopted resolutions last night urging the state to buy and sell food and to build cold storage plants. The resolutions will be sent to Albany. Mr. Perkins announced that he had bought 15,000 sheep last week in Oregon to sell to New York State farmers.

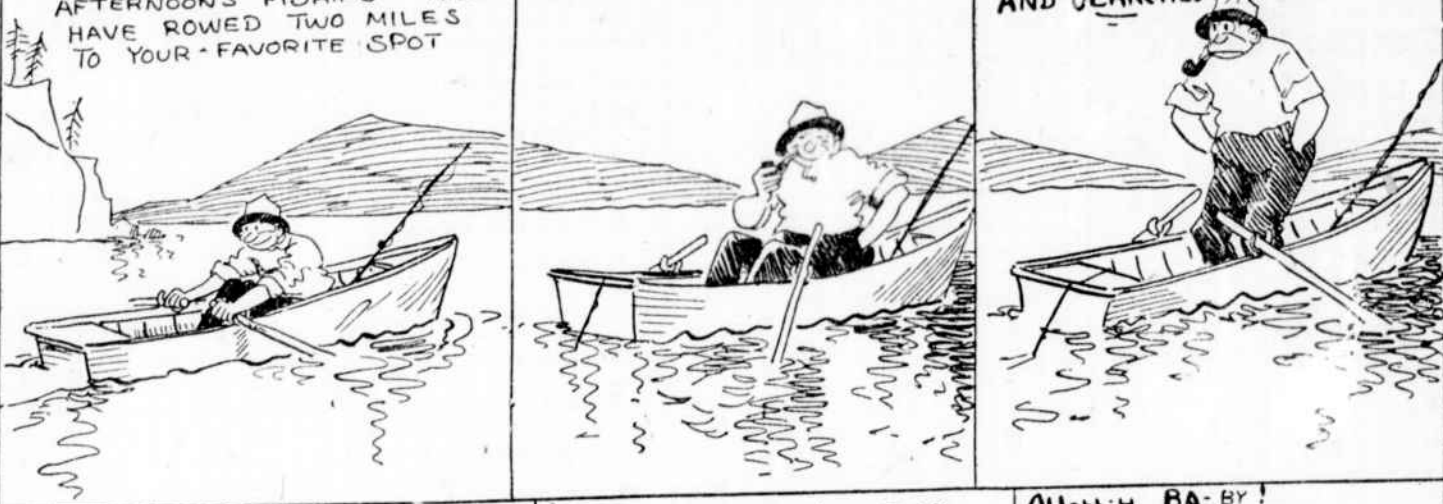

Miss Sallie Jean, of the Mayor's Food Aid Committee, said that 750 children had been discovered in the Gramercy district who were victims of malnutrition. Their mothers, she said, had been invited to attend a cooking class established by the committee.

Mrs. Tulp Sues Again
Hackensack, N. J., July 30.—Papers in a divorce suit against the Rev. Peter A. Tulp, formerly pastor of Episcopal and Reformed churches here and in Newark, were returned to-day to the Sheriff of Bergen County for service. Mrs. Tulp has enlisted in the army and is now at Fort Slocum, New York.

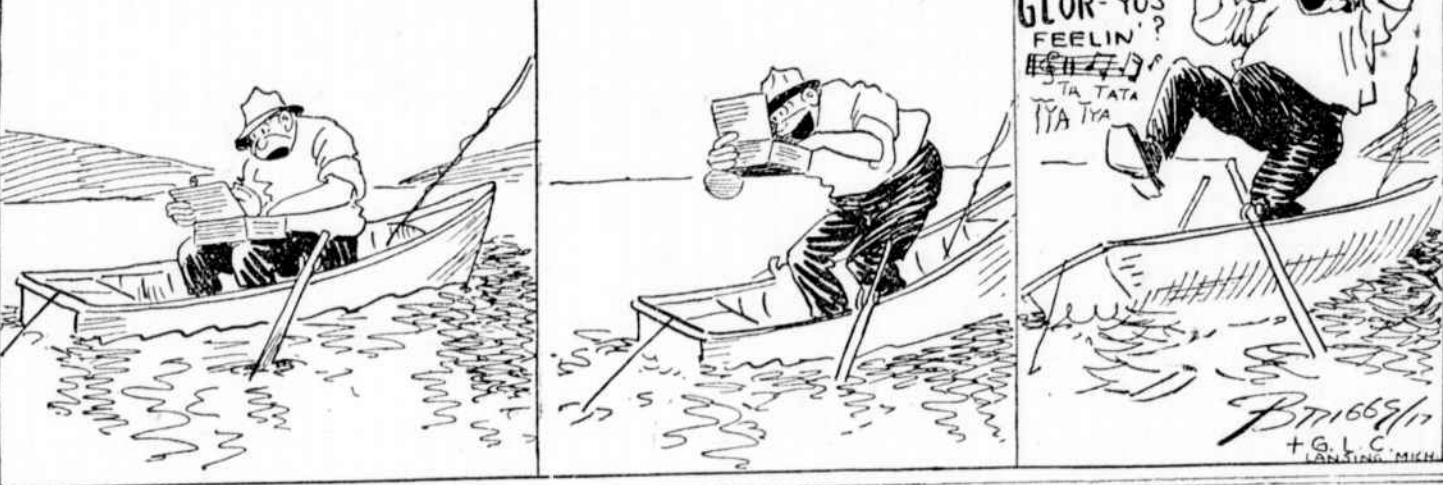

It is the second divorce action Mrs. Tulp has brought. She alleges desertion. In the first suit, the port quarantined Vice-Chancellor Fowler confessed to an impression that Tulp was without any sense of honor or morality, although he ordered struck from the record Mrs. Tulp's opinion that the divorce was "the biggest lie in the world."

Ain't It a Grand and Glorious Feelin'?

AFTER YOU'VE GOT THE BOAT READY AND EVERYTHING FIXED FOR A LONG PLEASANT AFTERNOON'S FISHING - AND HAVE ROWED TWO MILES TO YOUR FAVORITE SPOT - AND HAVE GOT OUT YOUR PIPE AND SETTLED DOWN TO FISH - AND FIND YOU HAVE LEFT ALL YOUR MATCHES ASHORE AND HAVE SEARCHED AND SEARCHED

AND FINALLY AS A LAST RESORT YOU LOOK IN YOUR TACKLE BOX - AND THERE YOU FIND SEVERAL LEFT OVER FROM LAST SUMMER OH-H-H BABY! AIN'T IT A GRAND AND GLORIOUS FEELIN'?

Small Incomes To Escape New Tax Increases

\$330,000,000 to Come From Corporations and Rich, Senate Proposes

Washington, July 30.—Revision of the war tax bill to increase its total from \$1,670,000,000 to about \$2,000,000,000 was undertaken to-day by the Senate Finance Committee, while House leaders informally discussed measures to still further provide against the increased estimates of this year's war expenditures.

Final action was postponed by the Senate committee, but Chairman Simmons said to-night that the present consensus of committee opinion indicates the following changes will be made in the tax measure:

Imposition of most of the tax increases on corporations and individuals having incomes of \$20,000 and more.

Material modification of the so-called Jones amendment, which in its present form levies 15 per cent upon corporations' undistributed surplus.

No increase of the normal income tax rate on individuals, but an increase, probably to 6 per cent, of that on corporations.

Additional taxes on intoxicating beverages, including whiskey, beer and wine.

Increase of some of the consumption taxes imposed in the bill on sugar, tea, coffee and cocoa, and possibly addition of a few new small taxes.

The exact divisions of the new tax burden have not been decided, but increased corporation income taxes probably will raise about \$170,000,000 to the bill.

The normal rate probably will be made 6 per cent. The tax is 2 per cent under the present law and an increase to 4 per cent was provided in the bill as it passed the House.

Increased consumption taxes be decided upon later. It is expected that the proposed rate of 1/2 cent a pound on sugar will be raised. Among new revenue sources the committee is considering is a new tax on petroleum products.

Whether the Jones amendment taxing corporate undistributed surplus 15 per cent is to be reduced in its levy or entirely eliminated was not decided. The understanding to amend the provision, Senator Simmons said, is based upon the intention to levy increased corporation income taxes.

The committee decided to-day to change the basis of war profits taxation so as to include under the exemption clause certain concerns in existence before the war.

Cooper Waives Immunity
Acting Head of Detective Bureau Testifies in Cruger Case
After waiving immunity, former Acting Captain Alonzo Cooper, of the 4th Branch Detective Bureau, went before the grand jury yesterday and testified to his part in the investigation of the missing Ruth Cruger last February. He received all the reports filed with the 4th branch by Detectives John Lagarone, Frank McGee and Edward Dillon. He was preceded on the stand by Detective Dillon.

Deputy Police Commissioner Guy Scull was to have appeared before the grand jury as a witness, but the extreme heat slowed up the operations of that body to such an extent that he was not called. It is likely that he will testify to-day after signing a waiver of immunity.

It is possible that the grand jury will complete its work to-day, and in that event several indictments are expected. Among these, it is said, will be one prominent police official stationed at headquarters.

Retrial for Mooney Recommended by Attorney General

Action Based on Exposé of Witness's Attempts to Suborn Perjury

San Francisco, July 30.—A new trial for Thomas J. Mooney was recommended by Attorney General U. S. Webb to-day in a document filed in the state Supreme Court, where Mooney's appeal from sentence of death is pending. Mooney was tried on a murder charge, an outgrowth of a preparedness bomb explosion, killing ten persons.

The Attorney General's action was based on the exposé of alleged attempts by Frank C. Oxman, an Oregon cattle dealer, to suborn perjury in connection with Mooney's trial. Oxman, a witness against the defendant, is now under arrest and awaiting trial in the superior court.

After publication of letters from Oxman to F. E. Rigall, of Grayville, Ill., in which Oxman asked the latter to appear as a witness against Mooney, Superior Judge Franklin A. Griffin, who presided at Mooney's trial, asked Attorney General Webb to confess error "in the interests of justice."

Mooney's wife, Mrs. Rena Mooney, was recently acquitted of one of nine indictments for murder growing out of the explosion on July 22 last year.

Rioting Negroes Arrested
Whites to Pass Theatre
Waco, Tex., July 30.—All the negro soldiers of the 24th United States Infantry who took part in last night's rioting with the local authorities have been accounted for. Six were arrested not long after the disturbances took place. Fourteen others who escaped to the entrance of the city were placed under guard. Everything was quiet to-day.

Last night's trouble was provoked by negro soldiers refusing to allow whites to pass a negro motion picture show.

Will Jones, a negro trooper, was shot in the head, and Patrolman Todd, Edna Williams and Neal Harris, all white, were slightly injured.

The troops arrived yesterday from El Paso to do temporary guard duty upon government property at Camp MacArthur, pending arrival of Wisconsin and Michigan forces.

Seek to Unionize Negroes
The International Iron Moulders' Union has started a movement to organize labor in the white and negro foundries in its trade. In a call issued yesterday urging all negroes to organize, the union speaks of the reluctance which Booker T. Washington always had toward introducing labor organization among the members of his race.

"Since Mr. Washington's death," it says, "no leading representative of the negro race has said or done anything which has come to our attention which has in any way encouraged the negro industry to join the trade union of his craft. It was for this reason that the moulders' delegation at the last convention of the American Federation of Labor metal trades department was introduced the measure which instructed the officers of the department to correspond with recognized leaders of the negro race and convey to them the desire of the American trade union movement to bring about trade union organization among negroes."

Warning to Heroes
One Is Sued for Injuring Girl He Saved in Lake
When Warren D. Hayden, of Worcester, Mass., plunged overboard from his motor boat on Lake Quinsigamond and rescued Miss Josephine Depatie from drowning, he little thought, says "The Brockton (Mass.) Enterprise," that he had started a \$2,000 damage suit right there.

A few days later he was enlightened. His father, Charles Depatie, brought the action, alleging that Hayden's boat upset the canoe in which Miss Depatie was voyaging, and that in rescuing her Hayden used her so roughly that she brought on a case of appendicitis, for which she had to undergo an operation.

Rockefeller Now Has No Supervision Over Foundation Funds

Oil King Surrenders Rights to Direct Spending of \$100,000,000 Gift

The withdrawal of John D. Rockefeller's supervision over any of the expenditures of the Rockefeller Foundation, to which he contributed \$100,000,000 worth of securities, was announced yesterday. When the gift was made Mr. Rockefeller stipulated that \$2,000,000 of the income should be spent as he directed for objects within the corporate purposes of the foundation. In his letter Mr. Rockefeller said:

"In view of the increasing demands upon funds of the foundation, especially those arising in connection with the great war for human freedom in which our country is now engaged, I have decided to designate the application of any portion of the income of the foundation and release the foundation from any designations heretofore made which have not already been paid."

An amount of the foundation's 1917 income which had not been designated by Mr. Rockefeller up to July 19, when his letter was written, is \$965,236.69.

Hungarians Protest Persecution in Fiume
Charge Austrians Have Ruined Seaport's Commerce and Oppressed Citizens
[From The Tribune Bureau]

Washington, July 30.—Hungarians are discontented over the treatment of the population of Fiume by Austria, according to the radical Budapest paper "Vilag," excerpts of whose comments on the matter have been received here.

The paper laments the condition of Fiume, with her commerce paralyzed, the city economically ruined, and the Austrian government persecuting its citizens under the pretext of espionage.

The paper states that its charges are warranted by the words of Count Bathany, a leading figure of Fiume, and asserts that "a little change in the attitude of the Austrians toward the city would result in the ruin of the city."

"The rumor," it says, "that Wuklafus Zoltan may again be made governor of Fiume is considered as one of the most distressing possibilities. Under his regime Fiume was terrorized. His policy was the policy of Torquemada."

Picks Hearst for Tammany
Republican Leader of Queens Believes Him Wigwag Choice
Joseph H. De Bragga, Republican state committeeman from Queens and leader of the Republican organization in that borough, predicted yesterday that William Randolph Hearst would be the Tammany candidate for Mayor.

He said he thought Hearst would make the strongest candidate the Wigwag could name against Mayor Mitchell.

"When he was a candidate previously," said Mr. De Bragga, "he carried Queens. He would not have so much to do this year, though."

Mr. De Bragga is a Mitchell Republican and will be intrusted with the task of choosing the candidates in Queens who are to run on the Fusion ticket. He does not favor Borough President Connolly for renomination. His candidate is Robert W. Higbie.

There was talk yesterday of former Assistant Corporation Counsel William F. Burr as the Tammany candidate for Mayor. Mr. Burr was charged of the division of franchises of the Corporation Counsel's office for ten years and managed the city's successful fight for 80-cent gas.

Red Cross Sends Special Mission
Wichita, Kan., July 30.—Henry J. Allen, of this city, has been named by the National Red Cross Council as a member of the special commission to go to France. The commission will spend five weeks in France. An early departure is expected.

U. S. to Call On Mexico to Oust Its German Spies

Fletcher Will Call Carranza's Attention to Neutrality Violations

Washington, July 30.—So numerous have become the reports of German spy activities and propaganda in Mexico that Ambassador Fletcher is prepared upon his arrival at Mexico City to call the attention of the Mexican government to the links in that country between Berlin and German agents in the United States.

Officials of the State Department do not call into question the integrity of the Mexican government, but the reports have left no room to doubt the existence of a German espionage network in Mexico.

The Carranza government is believed, in fact, to be disturbed by the abuse of its hospitality, and there is a feeling here that the time is not far distant when certain representatives in Mexico of the German Foreign Office may be officially questioned as to their activities.

How extensive the work of the German agents has been in forwarding information to Germany by mail or by other means has not been ascertained by American agents, but evidence of their tireless activity in propaganda has been produced. When Carl Heynen was arrested a few weeks ago on the charge of spy activities in Mexico, it was not known that his work extended to Mexico, but since then evidence has been produced to indicate that he was very intimately connected with the German spy system there, and that the men who formerly reported to him are continuing their efforts.

One man whom agents of the United States are watching is Richard Eversbusch, the German consul at Tampico. Mr. Eversbusch was the partner in business of Mr. Heynen, the firm name for many years being Heynen & Eversbusch.

While almost every other government has decreased the number of its consular representatives in Mexico Germany has kept the same list and Minister von Eckhardt has been at the capital since the overthrow of Huerta.

Will Urge Expulsion
It will be pointed out to the Mexican government that in the event of reasonable proof of undue activities by any German consul or diplomat present in the country, the United States will not be loyal to labor. That is certain.

"Many Socialists of standing are lining up with us in this matter. They remain Socialists, but they are not loyal to the state. They will not be loyal to labor. That is certain."

The People's Council yesterday sent out a letter calling attention to Ernest Bohm's denial of statements attributed to him by the People's Council. Bohm is working on the East side. It asks that this denial be remembered when Bohm or his associates next speak of the council.

Six End Lives, Three Of Them by Hanging
Death Certificate Shows Prof. Ganz, Stevens Instructor, To Be Suicide
Professor Albert Frederick Ganz, of Stevens Institute of Technology, whose death at Katonah, N. Y., was announced last Saturday, committed suicide by hanging. The cause of death was determined yesterday by the Hobbies Board of Health. This gives the cause of death as "strangulation by hanging," and then, in brackets, "Suicide."

Mrs. Sarah Hoffman, of 133 Moore Street, Brooklyn, was found hanging in her home yesterday by a towel which she had knotted about her throat. She was taken, dying, to St. Catharine's Hospital.

Another Brooklynite, John Mock, of 440 Melrose Street, was found dead in the cellar of his home, hanging from a beam. Business troubles are believed to have caused his act.

Frederick Mast, of Ridgewood, Queens, walked into the kitchen of his home yesterday bleeding from gashes at his head and neck. He was taken to the hospital it was said that he would die.

Miss Bessie Horton, sixty-two years old, leaped from her home on the fifth floor of 628 East Fourteenth Street yesterday morning and was killed. She had been blind for more than a year.

Mrs. Adrienne Dolly Sheppard, of 611 West 111th Street, attempted to kill herself yesterday by swallowing a quantity of laudanum. Dr. Hass, of the Knickerbocker Hospital, saved her by quick work with a stomach pump.

Sues to Compel Father To Adopt Children

Wife No. 2 Complainant Against Erlanger, Now With No. 1

Mrs. Harriet E. Erlanger has brought suit in the Supreme Court to compel Arthur G. Erlanger to adopt his own children. Erlanger is a wealthy young man, who, it is alleged, has had two wives and is now living with the first. The plaintiff, who is mother of the children, is his second wife.

Erlanger lives in Chappaqua, N. Y. He is a son of the late Nathan Erlanger, a wholesale dealer in velvets. From him the young man inherited \$30,000 in cash, a weekly income of \$140 and is a trust beneficiary of the residue, amounting to about \$1,500,000.

Erlanger married his first wife in 1909, and they had three children. In 1909 Mrs. Erlanger obtained a separation. Although not legally free to do so, Erlanger, it is charged, in 1909 married again, in Savannah. In 1915 Erlanger went back to live with his first wife. He says his second wife knew of his first wife when she married him, which she denies.

Upon his separation from his second wife Erlanger signed an agreement to pay her \$30 a week and to adopt their two sons, that they might share in his estate. He failed to keep either of these promises, it is charged, although Mrs. Erlanger is suing only to enforce the adoption promise. Erlanger says that his first wife will not permit him to adopt the children.

Rich Canadian Held On Woman's Complaint
Far Rockaway Music Teacher's Wife Says Manufacturer Shot at Her
C. H. Cahan, Jr., said to be a wealthy manufacturer in Canada, appeared in the Jamaica police court yesterday and surrendered to Detective John P. Ferlie, of the Eighth Branch Bureau. At the request of Martin W. Littleton, his attorney, Justice Koehendorfer granted a private hearing. At its conclusion all that was made public was that Cahan had been held in \$1,000 bail for the grand jury on a charge advanced by Mrs. Lillian Rebarber, wife of John Rebarber, an instructor of music, now living at Far Rockaway.

Mrs. Rebarber explained this charge at length last night. According to her, Cahan's wife had been accustomed to take music lessons from Rebarber at his studio, 420 Madison Avenue. On July 3, the wife of Cahan appeared at the Wave Crest Hotel and announced that he was going to shoot Rebarber for undue intimacy with his wife.

"I knew positively that the charge was without foundation," Mrs. Rebarber said. "We walked down Central Avenue together. I was pleading with Mr. Cahan to give up his insane idea. He declared several times that my husband was guilty and that he was going to kill him."

"Suddenly he said he would kill me and reached for his pistol. I swung him partly around, at the same time stepping backward. His shot missed me."

Cahan would say nothing to newspaper men yesterday, apart from informing them: "Not a word of this is to get into the paper."

Labour Opens Fight To Drive Out Germans
Every Workingman's Organization in Country Circularized
The work of combating the efforts of pro-German elements to use the labor movement for their purposes was begun by the newly formed Alliance for Labor and Democracy which has its headquarters in the Stewart Building, 280 Broadway. The plans call for the circularization of every labor organization in the country and the holding of mass meetings wherever the Workman's Council, a subsidiary of the People's Council, begins its propaganda.

"This movement to stamp out anti-Americanism in the labor movement began in the Central Federated Union in this city," said a member of the executive council of the alliance yesterday. "The first move will be to circularize the German workers in this city. We will work through the national and international bodies, the state federations and the local unions."

"We have plenty of speakers, and whether there seems any need of it, mass meetings will be held until those who are seeking to make labor a cloak for work in the interest of Germany will have to get some other sort of cover. They will not be loyal to labor. That is certain."

"Many Socialists of standing are lining up with us in this matter. They remain Socialists, but they are not loyal to the state. They will not be loyal to labor. That is certain."

The People's Council yesterday sent out a letter calling attention to Ernest Bohm's denial of statements attributed to him by the People's Council. Bohm is working on the East side. It asks that this denial be remembered when Bohm or his associates next speak of the council.

Six End Lives, Three Of Them by Hanging
Death Certificate Shows Prof. Ganz, Stevens Instructor, To Be Suicide
Professor Albert Frederick Ganz, of Stevens Institute of Technology, whose death at Katonah, N. Y., was announced last Saturday, committed suicide by hanging. The cause of death was determined yesterday by the Hobbies Board of Health. This gives the cause of death as "strangulation by hanging," and then, in brackets, "Suicide."

Mitchell Accepts Nomination; Will Make Hard Fight

Personal Ambitions Lie In Other Fields, Mayor Tells Fusionists

Promises Honest Rule
Adamson Consents to Run for President of Board of Aldermen
A letter from Mayor Mitchell formally accepting his renomination was made public yesterday by the Fusion Committee of 250. In it he points to the conflict between his desire to retire and his duty to run, and he promises a vigorous campaign.

The Mayor is resting at Upper Saranac Lake. His letter is dated from there. Addressed to William Hamlin Childs, chairman of the executive committee of the Fusion Committee, it reads:

"My Dear Mr. Childs: I have just received your formal notice of my renomination for the office of Mayor of the City of New York by the Fusion Committee of 1917.

"Permit me to state to you, and through you to the entire committee, that I am deeply sensible of the high honor conferred upon me by the endorsement of my administration of the office of Mayor during the past three and a half years, through this renomination by the unanimous vote of the committee. Please express to the members of the committee my very keen appreciation.

"Since the time has now come for a public record from me upon this matter, perhaps it will not be amiss if I restate what I have so often said to you and to the other gentlemen representing the committee with whom I have conferred.

No Ambition for Public Office
"As you know, my determination not to accept any renomination for the office of Mayor was formed, and I believe, before the opening of the conference between your subcommittee and myself. I had and have no ambition to continue in public office. My desires lay and will lie in a different direction, yet what you state to me that it was your firm conviction that in case I did not withdraw my refusal to run no effective fusion movement could be organized, I realized that the fusion movement was a continuation of honest, efficient, business government could not be brought about, except upon the basis of a renomination and nomination of the present administration.

"Although I did not concur in this view with regard to myself, and, although the course you proposed conflicted with my ambitions, my desires and my interests, yet what you stated to me that it was your firm conviction that in case I did not withdraw my refusal to run no effective fusion movement could be organized, I realized that the fusion movement was a continuation of honest, efficient, business government could not be brought about, except upon the basis of a renomination and nomination of the present administration.

"I have, therefore, my assurance that I will become the Mayor of New York City. I will accept the nomination for the office of Mayor under whatever conditions may be presented. I will conduct as vigorous a campaign as in my power lies, as the representative of those who are honest and businesslike administration of the public affairs of New York City.

"Very sincerely yours,
JOHN MITCHELL

Adamson Predicts Victory
The Fusion Committee also gave out a letter of acceptance from Fire Commissioner Robert Adamson, who has been nominated for President of the Board of Aldermen on the same day it renominated the Mayor, July 20. Adamson writes in part:

"You are taking up the fight against Tammany Hall at a time when the prospect of a real triumph seems more hopeful than ever before. With many reverses and discouragements, this citizen warfare
